Career Break (DEC 2022 – MAY 2023)
During this period, I took a planned break from full-time employment to focus on personal and professional development. I used this time to:

- Strengthen my technical skills by learning/upgrading [mention technologies – e.g., React Native, TypeScript, Node.js].
- Work on personal or freelance projects to apply what I learned in real-world scenarios.

WORK EXPERIENCE

RENOTECHNO | JUN 2022 – NOV 2022
5 Month

- Developed and maintained cross-platform mobile applications using React Native, delivering consistent performance on both Android and iOS.
- Implemented state management using Redux and Context API to handle complex application logic efficiently.
- Integrated REST APIs, Firebase, and third-party libraries for features like user authentication, real-time data, and media uploads.
- Worked closely with the UI/UX team to translate designs from Figma into responsive and pixel-perfect screens.
- Performed debugging, performance optimization, and code refactoring to improve overall app quality and maintainability.
- Collaborated in Agile sprints and contributed to planning, development, and release cycles.

CODERKUBE TECHNOLOGIES | JUN 2023 – NOW
2 year

- Developed and maintained scalable, high-performance applications using React Native for mobile and React.js for web platforms.
- Built reusable components, managed complex state using Redux and Context API, and implemented responsive UI/UX across devices.
- Integrated RESTful APIs, Firebase, and third-party libraries to power features such as authentication, chat, notifications, and media uploads.
- Collaborated with cross-functional teams including designers, QA, and backend developers in Agile sprints for seamless delivery.
- Optimized app and web performance through lazy loading, memoization, and code-splitting techniques.
- Conducted thorough debugging, testing, and code reviews to maintain clean, production-ready codebases.
- Played a key role in deploying apps to Play Store, App Store, and web using CI/CD pipelines.
- Tech Stack:
